## **OBJECTIVE**

To obtain a challenging position as a MERN stack developer where I can utilize my technical skills and experience to develop high-quality web applications. I am eager to learn and implement new technologies to stay up-to-date with industry trends, and am committed to continuously improving my skills to deliver exceptional results.

## **PROJECTS**

#### **HORIZON-Tech Website**

- Developed a fully functional mern-stack application in a team of 5 for the first ever technical festival of the institute
- Utilized ReactJS, MongoDB, Slick, and Chakra UI to create a dynamic and user-friendly platform for attendees
- Implemented various features, including a registration system, event schedule viewer, and sponsor engagement tools
- Resulted in a total registration of around 700 participants, with positive feedback on the effectiveness and ease of use of the platform

## Airbnb-NewYork-Data-Analysis-and-Visualization

- Collaborated with a team to conduct data analysis and visualization of the Airbnb New York dataset using Python libraries such as Plotly Dash, Matplotlib, Seaborn, Pandas, and NumPy, resulting in insightful and visually appealing representations of the data.
- Employed various statistical and exploratory data analysis techniques to identify trends, patterns, and insights in the Airbnb New York dataset
- Worked collaboratively with team members, actively sharing knowledge, and contributing to the successful delivery of the project.
- Demonstrated a strong understanding of Python programming concepts, data analysis techniques, and data visualization tools, enhancing technical skills and expertise.

# **News React Application**

- Built a modern, responsive web application using React.js and the Fetch API that allows users to browse the latest news articles from top sources around the world.
- Implemented filtering capabilities to enable users to search for articles by category or keyword, and added a "favorites" feature that allows users to save articles for later reading.
- Designed the application's user interface using the Bootstrap 5 frontend framework to ensure a consistent and visually appealing experience for users.
- Demonstrated proficiency in modern web development technologies and best practices, including React.js, API integration, and responsive design

# **ACHIEVEMENTS**

Solved 100+ questions on LeetCode **Profile** 

# **EDUCATION**

#### **B.TECH**

Indian Institute of Information Technology Vadodara International Campus Diu

**=** 2020-2024

Diu,India

Current CPI - 6.30/10

# Higher Secondary Education Shiv Jyoti Senior Secondary School

**=** 2020

Kota.India

Secured - 70.80%
